(option 3)

July 2020

Fishers Tours Limited have taken the following precautions to protect our staff and customers in regard to the COVID-19 pandemic.

We have fitted hand sanitizer dispensers to all our vehicles for customers use:

We have installed partitions to all our vehicles to protect the driver and our customers:

We have implemented a company policy of all passengers require to wear a face covering while travelling on our vehicles (unless they are exempt on medical grounds). This allows us to be able to fill a coach to its capacity while it is engaged on a Private Hire. We have also increased the already stringent cleaning regime with regards our vehicles and we have signed up for the “We’re good to go” accreditation:

In addition, our drivers will have their temperature checked at the start of their duty every day. They will also be wearing masks while not behind the wheel of the vehicle, and while handling luggage will be wearing disposable gloves.
